

Pondicherry University (Karaikal Campus)
Department of Computer Science
CSCA514 – Internet and Web Technologies Lab
HTML exercises – Static Web page designing

1. Create a simple HTML page that contains some basic information about yourself (or any other person, real or fictional).

2. Create a simple HTML page that contains some basic information about yourself (or any other person, real or fictional). Your HTML page must correctly utilize the following HTML features: Font size (use at least three different sizes, Font color (use at least three different colors), Font face (use at least three different fonts), Ordered list, Unordered list, Nested list.

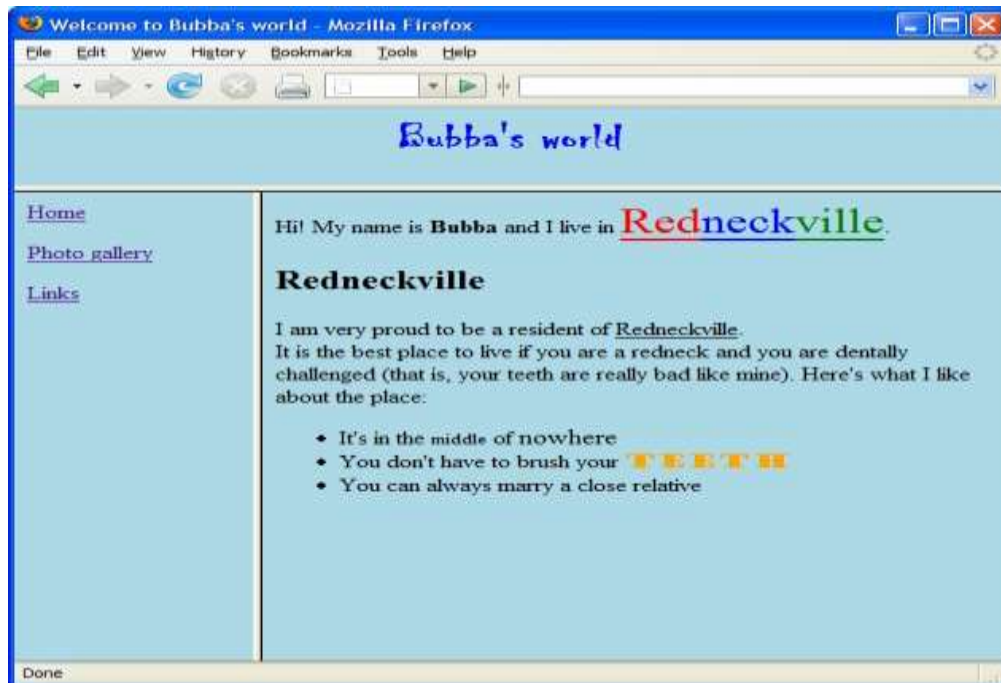

3. Create a simple HTML page that contains some basic information about yourself (or any other person, real or fictional). Your HTML page must correctly utilize the following HTML features: Image on a page, Image as a background, Link to an external web site, Email link

4. Create a personal web site consisting of two pages. The page you created for previous questions will be used as the basis for the first page of your web site. Here is an example of what the first page may look like:

5. create a personal web site with the frame-based navigation structure. The pages you created for one of the previous labs will be used as the basis for this web site. Your web site must contain a frameset with a header, navigation bar, and at least three different pages for the main area. Below are samples of what such a web site may look like:

6. Create a HTML form similar to the one given below:

Create Your Mail Form

Your Email:

Form data will be sent to this email address

Subject:

The subject of your form mail

Field Label	Field Type	Instruction for User	Required
1. Name	First Name		<input checked="" type="checkbox"/>
2. Email	Email Address		<input checked="" type="checkbox"/>
3. Website	Title		<input type="checkbox"/>
4. Credit Card	Card Type		<input checked="" type="checkbox"/>
5. Comments	Paragraph Text		<input checked="" type="checkbox"/>

[+ Add 5 More Fields](#) [Enable](#) drag & drop text box to order fields

- > Redirect link, thank you message, and delivery method
- > Customize email & auto-response message
- > Mail options (CC, BCC, HTML or plain text email)
- > Can't receive email?

[Create & Download Form](#)

7. Create the following HTML Table.

	1	2	3	4	5	6	7	
1	A			B				1
2								2
3	C							3
4							D	
5		F	5					
	1	2	3	4	5	6	7	

8. Create the following HTML table

Purchased Equipments (June, 2006)			
Item Num#	Item Picture	Item Description	Price
		Shipping Handling, Installation, etc	Expense
1.		IBM Clone Computer.	\$ 400.00
		Shipping Handling, Installation, etc	\$ 20.00
2.		1GB RAM Module for Computer.	\$ 50.00
		Shipping Handling, Installation, etc	\$ 14.00
Purchased Equipments (June, 2006)			

9. Create the following form:

First Name	<input type="text"/>
LastName	<input type="text"/>
user name	<input type="text"/>
Email	<input type="text"/>
Password	<input type="text"/>
Re-password	<input type="text"/>
D.O.B	<input type="text"/>
Mobile	<input type="text"/>
Country	<input type="text" value="[choose yours]"/>
Zip Code	<input type="text"/>
Gender	<input type="radio"/> Male <input type="radio"/> female
	<input type="checkbox"/> I agree with Terms & Conditions
	<input type="button" value="Submit"/>

10. Create the following form:

Contact us

* required fields

Your Full Name*:

Email Address*:

Message:
